[Virtual Ed Link, Inc. Featured on Stockbully.com](#)

FAIRFIELD, NJ--(Marketwire - June 18, 2008) - Virtual Ed Link, Inc. (PINKSHEETS: **VRED**), the developer and marketer of the leading edge technology platform for VELI's School and College Safety Management Systems, announced today that it is now featured on www.stockbully.com. Stockbully.com gives attention to emerging growth companies that seek more exposure in the investment community.

Stockbully.com is a multimedia investor relation's source that seeks out promising and mostly undiscovered companies in the marketplace and enables their clients to utilize multimedia marketing to gain exposure via the information highway.

"Virtual Ed Link has an amazing product, School and College Safety Management Systems, which has the potential to revolutionize communication systems, specifically in high schools and on college campuses," said Adam Ben-Evi, President of Stockbully.com.

"We are pleased to have the expertise of www.Stockbully.com as a means to obtain additional exposure for our company. I believe that this could be a very exciting year for us and our shareholders as we look forward to sharing our success with the investment community," stated Virtual Ed Link, Inc. CEO John Bay.

About Stockbully.com

Stockbully.com differentiates itself from traditional investor relations businesses, in that it strives to take a long-term approach. It nurtures and supports promising emerging companies with the aim of growing and appreciating in value. Through exposure on the Internet, Stockbully.com enables its clients to secure a place in their respective sector. Clients with limited financial means can utilize multimedia marketing via the Internet to gain a competitive edge. For more information, please visit <http://www.stockbully.com/>.

About Virtual Ed Link

Virtual Ed Link, Inc. responds to the growing need from school campuses (K-12 and higher education institutions) to collect, access, share and disseminate vital information within school districts. The School Safety Management System (SSMS), through VELI, is web-based and can be accessed anywhere. SSMS can be customized for the particular school or college in which it is being implemented. Basic guidelines, rules and procedures, and general notifications are embedded as defaults, or the school can install its own.

Virtual Ed Link, Inc. is a subsidiary of Viyya Technologies, Inc. (PINKSHEETS: **VYON**). The VELI School Safety Management System is powered by The Viyya Core Technology.

Virtual Ed Link, Inc. aka VELI (PINKSHEETS: **VRED**) is a subsidiary of Viyya Technologies, Inc. which develops and markets Business Intelligence and Personal Knowledge Management software applications. Virtual Ed Link, Inc. is licensed to market and sell the School Safety Management System (SSMS), which uses proprietary core technology solutions developed as Business Intelligence applications that manage day-to-day information by enabling users to automate and customize the way they collect, process, and distribute real-time data. The School Safety Management System is marketed and sold to schools and colleges around the U.S. and geared to be used as a collaborative Web 2.0 tool to share general information retrieved from any internet source among the school users, and especially, in the event of threats or danger, to disseminate alerts to help and guide students, parents, faculty and law enforcement in the actions necessary to help protect school attendees, and school infrastructure.

"Forward-looking statements" as defined in the Private Securities Litigation Reform Act of 1995 may be included in this news release. These statements relate to future events or our future financial performance; they are only predictions and may differ materially from actual future results or events. Viyya disclaims any intention or obligation to revise any forward-looking statements whether as a result of new information, future developments or otherwise. Important risk factors -- including, but not limited to risks associated with changes in general economic/business conditions, actions of our competitors, the extent to which we are able to develop new services and markets for our services, and changes in our business strategies -- could cause actual results to differ from those contained in forward-looking statements.
